## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

Cancel claims 4-13, 18-27

### ***Non-Elected Claims***

2. This application is in condition for allowance except for the presence of claims 4-13, 18-27 to Species B and C non-elected without traverse. Accordingly, claims 4-13, 18-27 have been cancelled.

### ***Reasons for Allowance***

3. The following is an examiner's statement of reasons for allowance: the essential difference from the prior art is forming a circumscribing rectangle circumscribing an outer circumference of the labeling picture and inverting the resulting picture to remove a region surrounded by the outer circumference of the labeling picture and the circumscribing rectangle. The image remaining after the region is removed is subsequently added to the labeling picture,

and the inspection is performed based on the resultant image. These features in combination with the other elements of the claim and the base claim are not disclosed or suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### *Conclusion*

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

a. Kitakado et al. U.S. Patent No. 5,408,538 discloses a visual inspection system that includes the binary converting step and utilizes an image inversion process.

b. Tsujikawa et al. U.S. Patent No. 6,167,149 discloses a visual inspection system that processes binary images utilizing circumscribing rectangles.
